WORK WEAR

WINTER 16

THANK YOU FOR YOUR INTEREST IN ICEBREAKER

Icebreaker was founded for a purpose - to provide a natural choice in an age of synthetics. We are delighted you are joining us on this mission.

Our brand has been built on relationships between people and nature. This extends to how we treat our animals and the land, and the ethics we hold sacred in our manufacturing and business practices.

We welcome you as a partner and look forward to working closely with you. We have four core values: Adventurous, Authentic, Achiever and Passionate - a successful partnership is when we unlock these values in each other.

We look forward to a journey with you.

LIGHTWEIGHT LAYERS

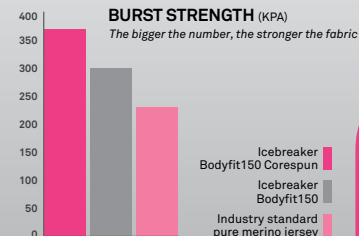

Our range of lightweight layers are soft, comfortable and perfect for the warmer months. They make great travel pieces taking up little room in your suitcase. Icebreaker garments don't hold odour (unlike cotton or synthetics).

LIGHTWEIGHT LAYERS

NEW INNOVATION: MERINO CORESPUN – A BREAKTHROUGH IN DURABILITY

We've added a nylon core for extra strength. Merino fiber is wrapped around this core which means you still get the softness of merino next to your skin.

Measurements refer to body size, not garment dimensions. In instances when your body measurements are midway between two sizes, go to the smaller size for a tighter fit or the larger size for a looser fit.

A close-up photograph of a merino sheep's face, focusing on its eye and the texture of its wool. The sheep's eye is a striking orange-brown color. The wool is a mix of light brown and grey, with a fine, crinkled texture. The text is overlaid on the right side of the image.
